

# CAPABILITY STATEMENT.

**FLEXIBLE, COMPETITIVE MINING  
AND CONSTRUCTION VEHICLE  
RENTAL ACROSS AUSTRALIA**

---

Lewis Auto Hire is a specialist commercial vehicle hire company serving the Mining, Oil & Gas and Civil Construction industries across Australia. We supply reliable, fit-for-purpose commercial vehicles to both public and private sector clients - from remote worksites to metro-based projects.

Established in 2012, we're a proudly family-owned business that delivers the flexibility, competitive pricing and personalised service of a small company - with the capability and reach of a much larger one.

Our fleet is constantly evolving to meet industry needs, including the integration of electric vehicles (EVs) for clients seeking more sustainable transport solutions. Every vehicle is site-ready, fully maintained, and can be customised to suit your project requirements.

# ABOUT

## RESPECT, INTEGRITY, HONESTY

Lewis Auto Hire was established in 2012 with a simple goal, to offer a more flexible, client-focused commercial vehicle hire service built on real industry insight. While working as a diesel mechanic in the Pilbara, founder Luke Lewis experienced firsthand the frustrations of limited support and high costs and knew there had to be a better way.

What started with a single Isuzu Truck has grown into a trusted national operation, supplying high-quality, fully equipped ICE and EV vehicles to the Mining, Oil & Gas and Civil Construction sectors in every state.

Our strength lies in our people. Our team is made up of experienced professionals with over 60 years of combined experience in mining and construction. Real-world insight allows us to deliver a vehicle hire service across all states that's tailored to our client's needs.

Lewis Auto Hire is founded on three core values, **Respect, Integrity, and Honesty** – which continue to underpin every aspect of our business.

**OUR AMBITION IS NOT  
TO BE THE BIGGEST,  
BUT TO BE THE BEST HIRE  
COMPANY IN AUSTRALIA.**

# FLEET SAFETY

# FLEET SAFETY

## DRIVE SAFELY WITH LEWIS AUTO HIRE

Safety is our top priority. That's why we're excited to announce the implementation of advanced driver fatigue systems across our fleet.

Here's what you need to know:

### 24/7 MONITORING FOR DRIVER SAFETY

- Our DSS (Driver Fatigue System) and IVMS are monitored around the clock.
- Receive alerts for fatigue events within seconds, ensuring swift action to protect your drivers.

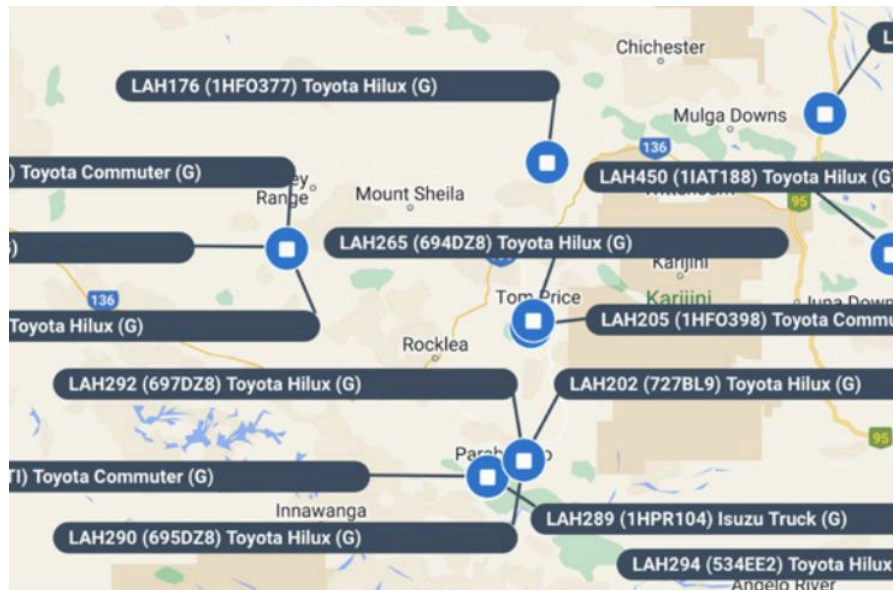

### LEADING IN TECHNOLOGY

Driver Fatigue System (DSS):

- Australia's first hire company to implement DSS technology across a variety of asset classes.
- Includes 55-Seater Coaches, Trucks, Hiluxes, Prados, Minibuses, and EV City Vehicles.
- We provide fit-for-purpose, compliant, and reliable vehicles tailored to your needs.

# FLEET SAFETY

## COMPREHENSIVE IVMS (IN-VEHICLE MONITORING SYSTEM):

- Every vehicle in our fleet is equipped with a complete IVMS solution. Features include:
  - 24/7 monitoring of driver behaviour, identity, speed zones, and real-time location.
  - Easy access to detailed weekly/monthly reports and administrative logins.
- Maintain total visibility and control over your hire fleet.

## SITE-TUNED TETRA RADIOS

- Ensure your team stays informed with site-specific communication systems.
- Eliminate unheard broadcast of crucial information and emergencies with clear, reliable communication.

## READY FOR THE ROAD

All vehicles are equipped with Driver Fatigue Systems, IVMS, and Tetra Radios, giving you confidence and peace of mind for every journey.

## REAL-TIME DATA, DRIVER INSIGHTS AND FATIGUE MONITORING IN EVERY VEHICLE

# DRIVING THE FUTURE: OUR ELECTRIC FLEET

# OUR ELECTRIC FLEET

## ADVANCED EV PERFORMANCE

With rising industry expectations around emissions reduction, increasing regulatory pressures, and a growing focus on sustainable operations, electric vehicles are no longer just a future trend, they're a smart business move.

Lewis Auto Hire delivers reliable, zero-emission solutions with a commercial fleet that includes the F-150 Lightning Pro, Toyota Camry and Corolla hybrids, as well as hybrid Hilux and Prado models - combining performance, efficiency and sustainability.

## BUILT FOR THE FUTURE, READY FOR THE ROAD

With advanced features like IVMS, pre-collision assist, lane keep systems, and Guardian Seeing Machines for real-time fatigue monitoring, our EVs combine cutting-edge technology with environmental responsibility, helping you drive forward into a smarter, cleaner future.

**Our EV fleet delivers on performance, compliance, and corporate responsibility, helping your business stay ahead in a changing landscape.**
